**Excursion:** Plitvice Lakes National Park | Dubrovnik

Enjoy a full day at the Plitvice Lakes National Park, one of Croatia’s most beautiful natural landmarks. The park is home to many animals, including bears, wolves, and lynx. It is situated amid dense forests of beech, fir, spruce, and other conifers, and plant life. The travertine barriers that create the lakes are created by the angle of sunlight and the water's temperature. The constantly changing hues of the lakes — azure, brilliant green, deep blue and sometimes gray — are a result of the karst terrain. Follow the miles of trails and wooden footbridges wind over, around, and through the park. The constantly changing hues of the lakes are a result of the karst terrain.
